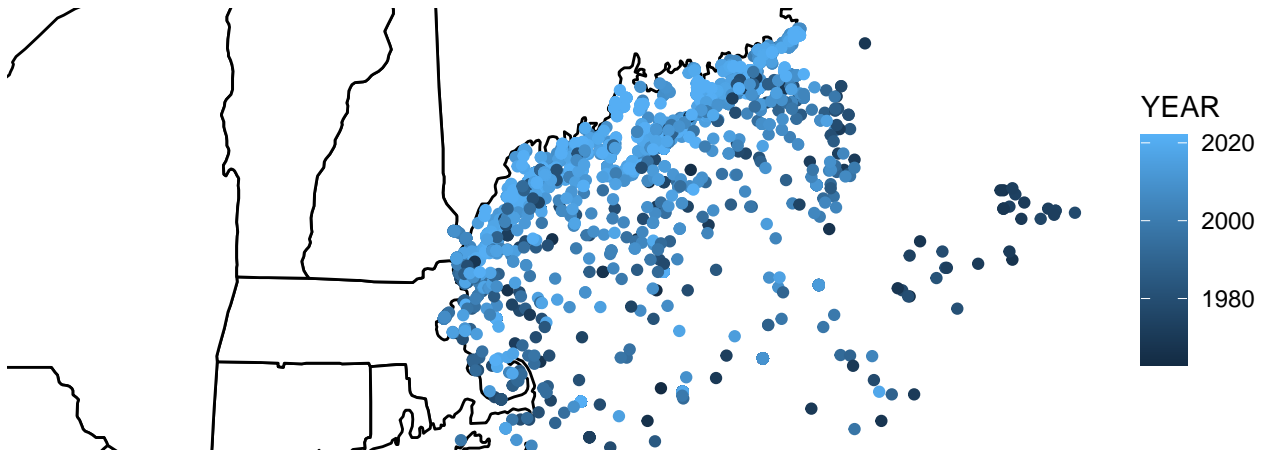

Figure 1: Datapoints per year spanning. Totals 45,879 observations from 1963 to 2022

Table 1: Data points and year spanned per source

| Data Code | Years Spanned | Number of datapoints |
|---------------|---------------|----------------------|
| MA_DMf | 1978-2021 | 120 |
| ME_DMR | 2000-2021 | 1357 |
| NH_FG | 1997-2015 | 104 |
| NOAA_Observer | 1989-2022 | 43649 |
| NEFSC | 1963-2021 | 649 |

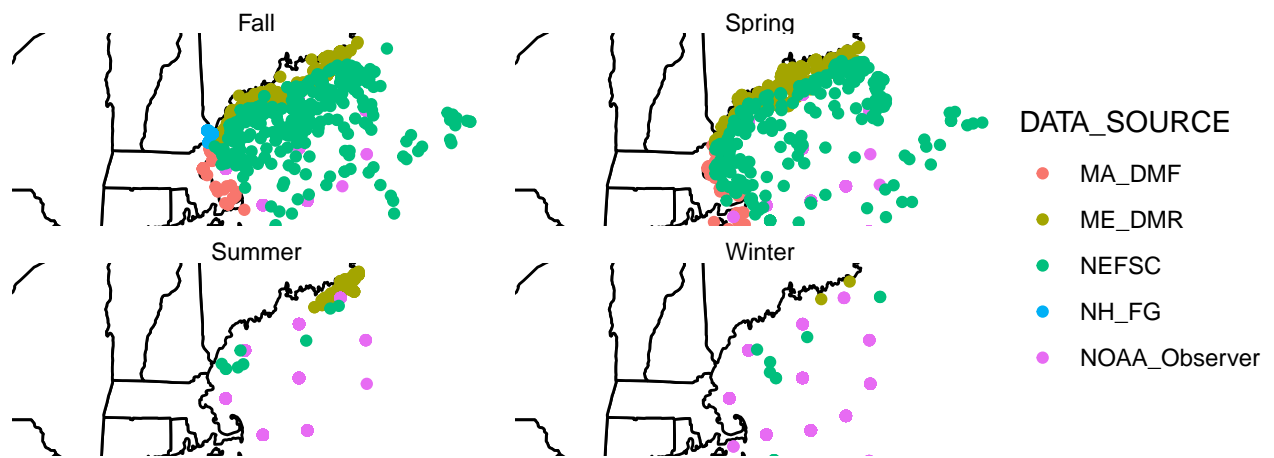

Figure 2: Datapoints per season

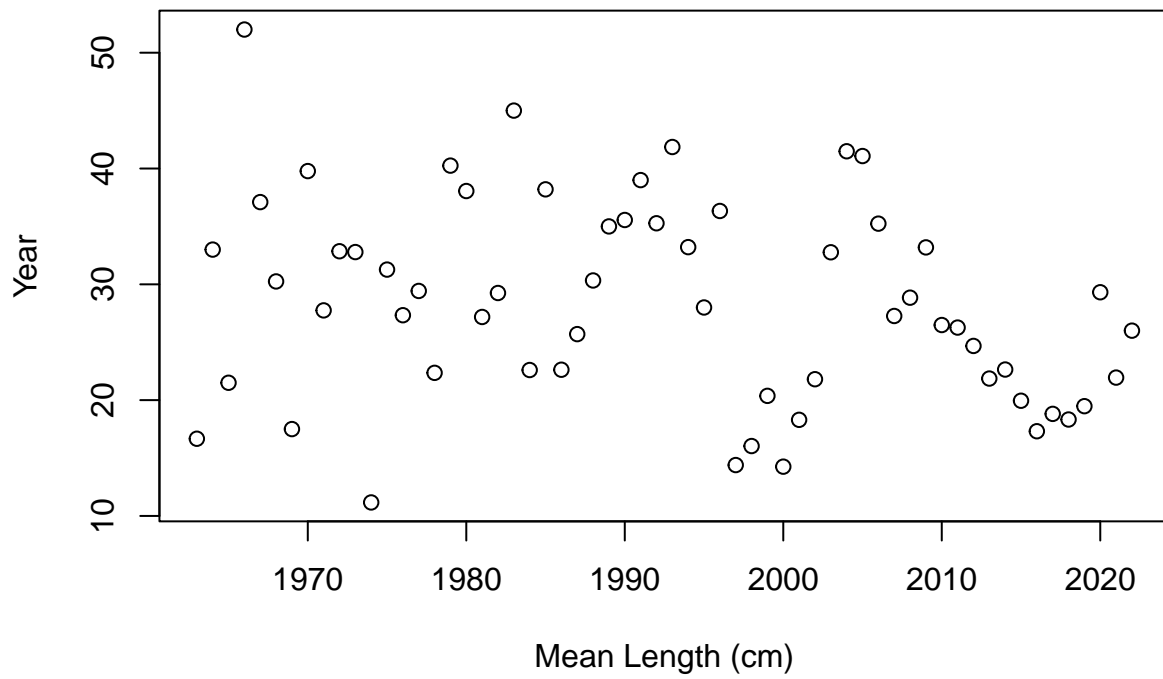

Figure 3: Average Length of lump fish over time

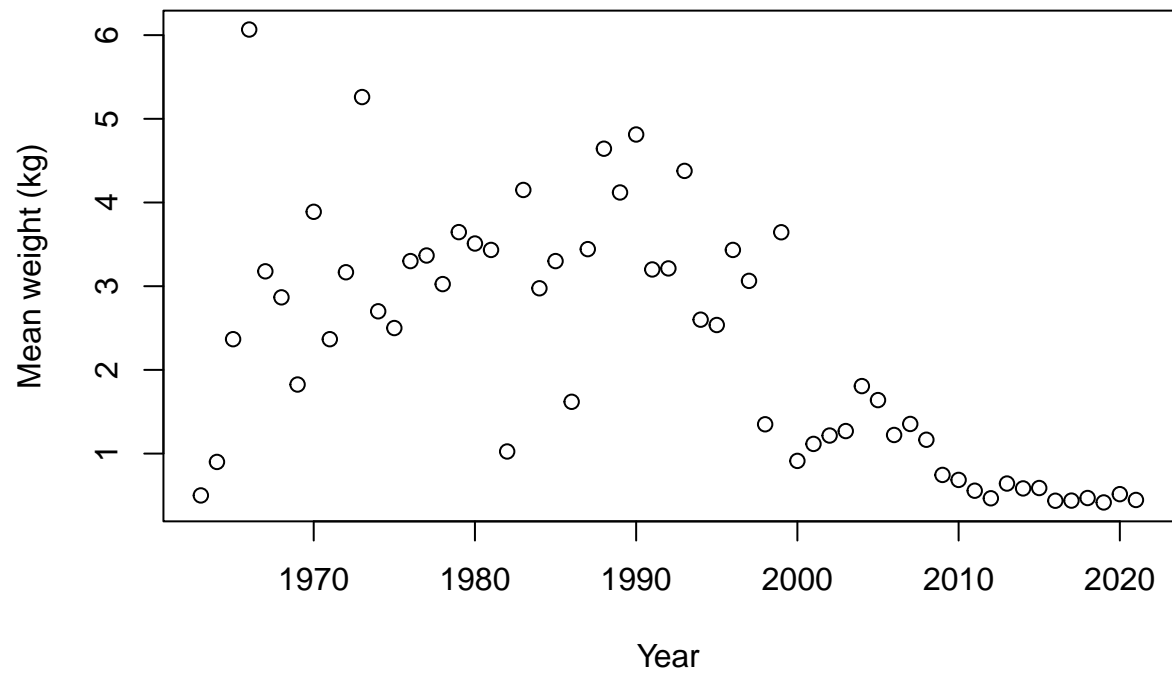

Figure 4: Average weight of fish over time across all data sources

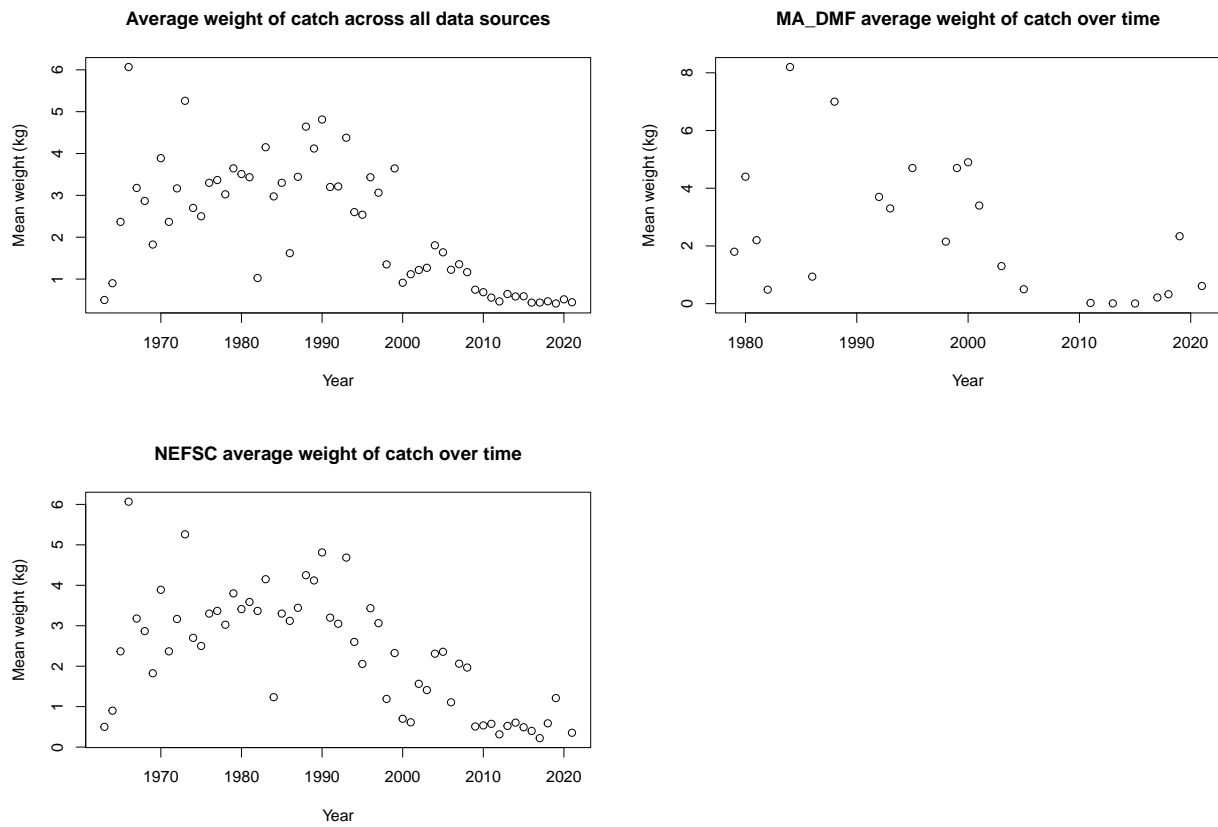

Figure 5: Average weight of fish over time
